### *Strawberry Poke Cake*

white cake mix  
1 (3 oz.) pkg. strawberry Jello  
1 cup boiling water  
½ cup cold water  
1 pt. strawberries  
¼ cup sugar  
1 (8 oz.) Cool Whip

Prepare cake mix as directed. Bake in 13"x9" pan. Cool cake in pan 15 minutes then prick with fork at 1/2" intervals. Meanwhile, dissolve gelatin in boiling water. Add cold water and pour over cake. Chill 2 to 4 hours.

While the cake is chilling, slice the strawberries, and lightly sprinkle with sugar. Let the berries sit until the cake is done chilling.

Dip pan in warm water for 10 seconds, then unmold cake onto serving plate. Pour strawberries over top of cake, then spread Cool Whip over top. Refrigerate until ready to serve.
